BENJAMIN SONG, October 19 2019 Facebook

“Good morning, Hong Kong! I am an American who has protested on the frontlines in Hong Kong. I will be back as soon as I can. I am worried for y’all during the upcoming weekend. I know it’s supposed to get very busy. **I decided to provide some thoughts and resources I’ve found as a former US Marine with some riot control training and as someone who has been on the ground in Hong Kong.**

1. The government of Hong Kong has revealed their true colours in this authoritarian crackdown and the people of the world are with you. You don’t have anything to prove. You don’t have to worry about foreign judgement. The people in Japan, Taiwan, the US, Canada, Europe and beyond are looking to Hong Kong with massive love and support.

2. I believe the change towards more flowing “Be Water” tactics are a positive idea. Direct clashes with police are dangerous and difficult and seem to offer little advantage. Flowing away from and around police and reoccupying the same positions is both safer and more effective. ‘Surrounding’ police can also have a large demoralizing effect, which is one of the factors in attaining ultimate victory. In riot control training, it is always taught that protestors will always outnumber police and can crush police if they overwhelm them. **When protestors adopt a “be everywhere” strategy and move and surround police like water, the police will be very helpless and scared.**

Riot control training always emphasizes staying together as a cohesive formation and not becoming surrounded. **Separated and surrounded police are very vulnerable.**

3. **Defensive violence:** because the most common and most important kind of defensive violence has been delaying and protecting, certain tactics need upgrading.

A. To impair police attacks, one of the best methods is to impair vision. Paint, glue, and spray paint are effective weapons against vehicles and armoured riot police. **Paint, balloons filled with pain, glass bottles filled with paint, and spray paint can semi permanently disable vehicles, helmets, and transparent shields. ...**

B. Barricades: Barricades have been widely used, but many have been very weak. Weak barricades put protestors in danger! When barricades are weak police can drive right through them without stopping, running down and surrounding protestors. Protestors should never stop reinforcing barricades, barricades are never “strong enough.” Barricades must at a minimum stop police, and ideally, they should be so difficult to dismantle that police either cannot take them down or must spend a long time just to

take down a single barricade. **I remember one barricade I made was so strong that police ignored it and could only operate on one side of Nathan Road that night...**

Building stronger barricades can be as simple as using heavy materials: steel, concrete, vehicles, rather than bamboo and plastic. A fast and strong barricade can be made by wrapping wire or even strong rope or strong fishing line between two poles like a spider web. Another way to reinforce a barricade can be with fire.

C. Fire, while some protestors have used Molotovs, I worry about a couple things regarding effectiveness. **First is please practice throwing.** Inaccurate or bad throws are very dangerous to yourself and everyone around you. Do not throw Molotov's poorly! Second is content, real Molotov's do not contain alcohol. While alcohol can be used, it burns quickly and at a low temperature and therefore will not deny areas and delay police attacks very well. Here are some resources I found on Molotov's (not a military weapon; I have no experience)Note: Napalm B can also be stuck to the ground and barricades to deny areas.

3. Planning: Many protestors have some sense of plan to escape when police attack. But more planning is needed to keep your group and all protestors safe. **Patriots around the world, such as the Kurds in Syria and Catalonians in Spain use Google Earth and Google Street View to scout and plan operations.** Whether planning escape routes with your friends or pointing out important observations to public forums, look the maps, study the maps, learn routes, learn sight lines, learn past police patterns, use markings and annotations, and plan what to do when police attack."

BENJAMIN SONG, Free China Texas Global Alliance Against Authoritarianism: 2019 Facebook

"Howdy Y'all, this is a group for the Texas branch of the Free China Movement. Free China is a global alliance against the spread of authoritarian control and censorship and for the liberation of the oppressed people of the PRC (Hong Kong, Xinjiang, Tibet, Inner Mongolia, etc.). We will be holding regular events, please feel free to reach out at any time with questions, suggestions, or to volunteer!

November 22 2019 "Plan B time. We have back up plans and here's what's going to happen next. There are people on the ground ready to receive supplies. **I'm going to be sending and ordering even more supplies. I'm also interviewing people who are looking for sponsors to go to or return home to Hong Kong to do ground support.** We'll get some pictures of them and from them of what's happening on the ground. I was planning on doing in-person training, but instead **I will be making and distributing training videos...**

Poster David V... "Dude you are wasting your time. You need chemistry equipment. Chemicals That can penetrate a charcoal type CBRN filter are the only way they can win this conflict." ...

December 2 2019 Update: Supplies are getting through! Now that I know they're getting through, shipments will be amped up. **I am the only one I know of getting this kind of supply in.** Unfortunately, I'm burning through the funds I have available to me. **Please help out if you care about equipping the heroic people of Hong Kong to protect and defend themselves!**

December 1 2019, We have to come to terms with a world in which China has surpassed the West. **It is time to unite or die...."**

SLAVE-OWNING ANCESTORS

The 1850 Tax List for Drakes Creek Sec., Simpson Co., KY, p. 81, lists Tom Cotton's ancestor Francis Ryon as owning 180 acres of land and seven slaves. Francis Ryon's daughter Rebecca married Jesse Hackney Cotton in 1842. In 1859, Jesse and Rebecca moved to Yell County, Arkansas. According to the 1860 census, Jesse Cotton, owned twelve slaves.

TOM COTTON, Arkansas, soldier, and MITT ROMNEY, Utah, Possible Presidential Candidate USA

We have edited a large section explaining the racist past of the Mormon church in America. It has been difficult to elect a President based on this Mormon faith. **Mitt Romney** has a controversial past with his support of the Vietnam War, a war that he did not want to fight in. He wanted other young men to die. He used his religion as a reason to avoid military service. He later had five sons, which his high rank protected his sons, from having to go to war in Iraq.

Tom Cotton recently partners with **Mitt Romney** on legislation in the Washington D.C. government. He is ambitious to be President one day. The Mormon is much older.

Mitt Romney is aggressive on wanting war with Russia and China. A leader during WW3 can invoke Martial Law, and stay in power indefinitely. The two men are both united on aggressive military ideas, and the Hosford family, a Mormon family with home in Utah, are the same faith as Mitt Romney. He is both their political and religious leader. The Hosfords are close to the Rotmeyer – Rothmeijer cousins, Dutch American family. **Fred Rothmeijer** served Prince Bernard, leader of the Bilderberg Group in Holland. These combinations are not good for Hong Kong, China. Or for other parts of the world.

Racial/Religious/Political Bias of Benny Tai/Tom Cotton Political Activists in Hong Kong – ONE Group

We are surprised by our own research. The picture does not look good. Due to the over-supply of American military/intelligence we expected some Jewish/Israeli links. Because of the partnerships with Israel and United Kingdom in the Middle East for many decades. The leading players are the same old groups that have ruled the world for centuries. We have seen other groupings. At first mostly Republican Party such as Ted Cruz, Dan Crenshaw, etc. Then Democrats linked to George Soros. This group are mostly "Christian"

and most like to be seen as “Church Leaders” while planning War Profits from impending war with China/Taiwan/HK. (References to the rest of the longer article, 15 pages before photographs.)

Over-Represented.

1. Almost all white men
2. Americans, only one British family representative, the Irish **Grenhams**.
3. European influence from **Dutch Bilderberg Group** Fred **Rothmeijer** and cousin **Jeff Rotmeyer**. **Hosford** family has a Norwegian who organized reception in America for the Queen of **Norway**, and **Fred Rothmeijer** served the royal family of **Holland, Prince Bernhard** and **Royal Air Force**.
4. Military and intelligence agency careers.
5. **North Carolina** links. **Texas** links.

Under-Represented.

1. Women, **Juliana Rotmeyer, Terri Appel, Stacilee Hosford**, etc. are all wives or daughters of more powerful men.
The only female exception is the HSBC banker **Carmel Armstrong**. Close to banker Matt Hosford.
2. Jews. Possibly no Jews at all, unusual in a world banking centre. No Israelis.
3. Blacks. Just Terri Appel the American wife of global metals expert Nick Appel.
4. Chinese. Considering this is an article about a Chinese city?

These men are shaping the city of Hong Kong, as a future United Nations S.M.A.R.T city. One World Bank, One World Currency, One World Army. The M in SMART city stands for Military. World Health.

FULL RECORDS, Proving the CONNECTIONS

SAVE THE SCREENSHOTS, THESE MEN WILL “CLEAN” THE INTERNET, AS THIS INFORMATION BREAKS. The Americans in Hong Kong try to make Japan and China fight against one another so there will be huge profits from **World War 3**.

We have been harassed and blocked **IN HONG KONG, CHINA** for trying to **HELP CHINA** and other countries. Why? Because the **American War Profiteers** made a long-ago plan, to make **BILLIONS**. They follow the same pattern as **Iraq, Afghanistan, Vietnam**, but now turn to **HONG KONG**.

TWO PROFESSIONAL SOLDIERS were above the young Ben Song, in both military hierarchy, the same rules all over the world. And also, the younger man respects his **ASIAN American** uncle, as a man much older, and experienced in military.

Albert Yukio Kawamoto, faithful servant of our Lord Jesus Christ, went to spend eternity with Him in Heaven in his 88th earthly year. The Lord called Al home in the early morning hours of June 24, 2020 as he slept peacefully at home. Al was born in Honolulu, Hawaii. He graduated from

the University of Hawaii with a degree in business and spent 29 years with IBM, taking early retirement in the late 1980's. He married the love of his life and his partner in service to God, Kathleen Kawamoto, on August 22, 1964. Together they touched many lives as they served in leadership positions in their church, mentored individuals and couples, and lead marriage enrichment conferences and seminars as far away as Hawaii and Russia. As an Executive Consultant for IBM the Lord put him before corporate presidents and CEOs, governors, generals, admirals and more as he not only gave them solutions to their problems from the Bible but also testified about his faith in Jesus Christ as his Lord and Savior. Al also served for many years on the Executive Boards of the North American Mission Board and Southern Baptists of Texas Convention.

He is survived by his loving wife of over 55 years, Kathleen; son Deron Kawamoto;

IBM is connected to another research article we work on. The TAIWAN – AMERICA Computer Chips Wars. This loving “Christian” is grandfather of Molotov Cocktail Teacher Ben Song.
