Report 1: ARTHUR HAU, Lingnan University Finance Expert, Taiwan, USA, HK, Violent Leader

Arthur Hau is violent, and at a high social level, as a professor of finance at Lingnan University. He is in the top 5 worst activists for seeking revolution in Chinese territories, and when we researched him a 2nd time, 2022, Facebook moved immediately to protect this American. He studied at John Hopkins, a hiring ground for the CIA.

He uses 2 different personalities, a sober financial expert, and a radical Che Guevara style to impress Chinese youth. We think he is a top financial expert for assessing future military damage, and his interests in finance should therefore be studied by experts.

Sources: Facebook 2019. He is under much protection, as Facebook later stopped ALL searches, and asked researchers why they were researching him. **He is HIGH LEVEL.**

Languages: Cantonese, English

Areas: Hong Kong, Vancouver BC, Baltimore Maryland USA, Taiwan

Studied Economics at University of Hong Kong, Hong Kong SAR

Studied Economics at Johns Hopkins University, Baltimore, Maryland, USA.

Studied accounting and finance at Simon Fraser University, Vancouver, BC, Canada.”

October 5

“This is a fake riot created by the Chinese communists to badmouth all protesters in Hong Kong. These vandalisms were most likely Chinese Armed Police because they use simplified Chinese, not traditional Chinese that is used in Hong Kong.”

October 6

“The off-duty policeman who shot a 14-year-old kid in Yuen Long could have been drunk....

He was found raising his gun and pointing it everywhere while walking along the light-rail rail after **shooting the kid.**”

October 6

“Fake rioting In Fanling MTR station video created and spread by the Chinese Communists.... Those rioters were very well built, more like police than even college students. They are all about the same age.... Because of the use of simplified Chinese "党铁", those rioters were most likely Chinese Armed Police.”

October 8

“A policeman without any police identification criminally assaulted a civilian. Then criminally intimidated bystanders by pulling his gun.”

September 28

“Most of the violence was started by **pro-communist people**, gangsters, or off-duty police. The problem is, if anyone calls the police, the **pro-communist people** or even gangsters will not be arrested; instead, the kid and/or the by-passers will be arrested.”

Arthur is also in a top category for quantity of posts, and the violence he seeks towards Hong Kong police. The police are always wrong. He is very violent himself, a trained writer of political propaganda, freely moving between **Taiwan, Hong Kong, America.**

CHINA: “This is the **true face of the CCP. They are thieves, killers, racists.**”

POLICE: “**If these HK communist police were in Texas, they would all be executed.**” (Other posters complain he is using an 8-year-old article, from another state.)

“**These communist police will beat up people before they arrest them.** Hong Kongers needs guns to protect themselves against police....”

“All those Hong Kong police who have committed the same mistakes should be suspended.”

“Those Hong Kong police are much more angry: they are poorly educated low life with low moral standards. Most of the people in Hong Kong are afraid of being beaten up by these big muscular objects.”

FOREIGN INTERVENTION: “So all well-educated Hong Kong citizens should have the right to protect themselves against the Nazi police according to Article 3 of the Human Rights Declaration of the UN.”

GUNS: “All HK citizens should have the right to buy guns to protect themselves against the **violent police and communist thugs.**”

“**Corpses are found everywhere in Hong Kong and yet there is NO police investigation into any of these cases. This is genocide.**”

(He has a photo of police with dead bodies in some other country, implying police are killing a lot of people here!)

“A systematic genocide of a well-known identity, “Hong Kong People”

Report 2: SING KWOK, NYC Real Estate Professional Smashing HK

“Why should we cooperate with a government and police force who shown no mercy to us?”

I cannot find my Updated File, and it is important because she is active in New York City, and links to Real Estate Activity in two countries. She was very active in smashing up HK, and this is odd for an affluent real estate investor. She uses TWO personalities, and in America, she speaks good English, as she works with very wealthy people. She may be a government agent. I include her in that she seems to be a traceable account, with connections to Sheung Wan area, Hong Kong. She has looked for housing there, and also has a mother who has a second home in Sheung Wan.

She has travelled between Taiwan recently, and other protestors repeat that Taiwan will be a place to escape to, and is already being used as a sanctuary, and regrouping area, for the completion of attacks on Hong Kong.

**Joined Facebook August 2008, Lives in New York, New York
Very active poster at Hong Kong Ex-Pats, not at her own Facebook.**

She believes attacks on police, and on the MTR are acceptable.

“Who gives a shit about the MTR and the dead objects ...we the tax payers partially pay for MTR... yet they betrayed us... I Approve ... HK Police treat citizens like less than Animals.”

October 1, 2019: Story About Using a Metal Pipe on Police!

Derry Ainsworth “Anybody old enough to make a conscious decision to use a metal pipe to attack a police officer with a gun on China national day, should be old enough to accept the consequences.”

SING KWOK replies to Derry Ainsworth

“You are just another garbage expats who are completely clueless yet acts like you are above all the locals here. Tell me more about what Hong kongers are fighting and what’s the Symbolism in what they are doing? You don’t know any?”

“We built this city and most of us live in subhuman condition already... What do we got to loss? Why should we cooperate with a gov and police force who shown no mercy to us and our youngsters AKA the tax payers? Why be a fat pig being spoon feed while shackled? The day after CCP shown the PLA marching near HK border... What did we do...? We put on our shoes and March the street the very next day!”

She is a trained dog handler, and advertises to mind dogs.

Her English grammar is not good, for office work, or educated work. Yet in NYC her

English is good at her real estate agency areas.

She has met with real estate investors in 2017, for unknown reasons, and never criticizes the protestors. She supports all the activities.

She travels between three countries.

Facebook: June 20, 2019

“The extradition amendments could effect us in ways that you never could imagine, these are no less than conversion prisons. China has been pulling out cultural/religious genocide for years. Can you imagine this happening in Hong Kong?”

This person is included as we think there are deliberate plans in these riots to make money from real estate speculation. Why are people causing prices to drop or rise in certain possibly pre-planned areas?

The Benny Tai Plan, a Scorched Earth military tactic, can cause billions of dollars to move in Hong Kong. If this is far-fetched, they are already doing this with Short Selling on stock markets, and should be exposed, or stopped.

Report 4 CEC CHENG Make Yu HOI KWAN and family ineligible for U.S. Entry

This one seems to be a strong leader. She appears to be a woman, with several accounts. **Cec Cheng, Elyse Cheng, of Hong Kong and Taiwan.** The police and their families are to be stopped from travelling to the United States. *She wants to overthrow the government of Hong Kong by destroying the economy of the city of Hong Kong.*

<http://facebook.com/cec888>

<http://www.pinterest.com/elysecheng/>

<https://petitions.whitehouse.gov/.../make-yu-hoi-kwan-and-her...>

Here is a petition she circulates on 2019 FACEBOOK:

“Make Yu HOI KWAN and her immediate family members ineligible for U.S. Entry, Citizenship and Visas

“The U.S. Immigration and Nationality Act states that any foreign government

officials and their immediate family members, who have severely violated human rights, are inadmissible for entry into the United States.

Much evidence has made it clear that members of the Hong Kong Police Force have been involved in crimes of large-scale torture, rape, and even murder while policing the protests of Hong Kong. Senior Superintendents of Police of the Police Public Relations Branch, Ms. Yu Hoi Kwan is guilty of defending police brutality as well as willfully lying about what the Hong Kong Police has done on press conferences, essentially assisting acts of a heinous terrorist group. We urge Congress to declare that Ms. Yu and her immediate family members be ineligible for US entry and visa."

The above words are from her Facebook Account, Cec Cheng.

The following words are from her Facebook Account, Elyse Cheng.

"I want to borrow the USA to grab the Chinese Communist party. So America can do something to help me with the Chinese Communist party? Attack on business people.....

Although Hong Kong, Hong Kong is only a city in China, but in fact, in the minds of the leaders, it is a spring bag in the eyes of the leaders. Most of the foreign capital can enter the mainland through Hong Kong. The ATM of Hong Kong is China's ATM. If one day Hong Kong loses its special status, what about the ATM is broken, you have 1400 billion people in your home to support, and you have to fight for the debt of people, and you won't be able to do it?"

"The invasion of Hong Kong can handle itself. It means that the Chinese Communist party is not able to intervene in Hong Kong's Self-Government.... This is a warning to the Chinese Communist party, if it is too far, the United States has the right to sanction China."

".... Do you expect to invade the negotiating table and ask the Chinese Communist party not to intervene in Hong Kong affairs and implement a double election immediately? This is why I don't want to go back to Taiwan. The attacks are closely watching the situation in Hong Kong..... May glory be back to Hong Kong!"

She may be in Taiwan as well, because she wants the protection of her favored country, America.

Report 5: Model, Bilitis Chan, Friend of Haters, Kyle Bass & Drew Pavlou

“Chinese are repulsive by their very act of being born CHINESE.” 陳梓晴 Chan, Tze-ching Bilitis. Sadly, this young woman has major psychological problems. She may be used by foreign men who understand this psychology. Her father and mother gave her Canadian citizenship, education, and money. She is open and has been all over the Internet.

ギャル最高!!!
“Hong Konger not Chinese”

Facebook: May 2 2018

I know, it's not the first time they pollute our land, ugh/
Chinese are repulsive by their very act of being born CHINESE.
Just thought y'all might wanna avoid going to these areas when it's crowded with uncivilized Chinese.

There must be some kind and smart Chinese out there, just please understand that what most hk ppl dislike are the bothering ones, we didn't call you out u don't have to be so triggered if ur being the good ones. **FYI, I hate uncultured hkers, whites, blacks and yellows** too. So it's not about the race, it just happened to be this group of ppl are Chinese and in HK, we're facing too many groups of these kinda ppl.

Her associations with others should be watched, as her racial loathing verges on genocidal. The billionaire **Kyle Bass** is an Internet friend, and she parties on Hong Kong yachts on a regular basis, calling herself a “fashion model”. She is a **“good” Chinese** for hating over **one billion innocent men and women** over the border.

Report 6: Joseph Woodard, Leader, Hong Kong Protests, 2014, 2019, Tanks Rolling Down the Streets of HK

Joseph Woodard came to teach English in China and is careful to say that he supports peaceful protests. His China Hater connections and sudden rise to power as an international leader made me suspicious. There are too many international groups active in Hong Kong that are against China. Why are they here?

Area of USA: Texas and Virginia. Religion: Roman Catholic?

I included him in my files of 2019. He was less violent. However, he truly does not want China to govern its own territory, Hong Kong, and does not respect people who want a friendly relationship. We are “brainwashed”, he as an American is not “brainwashed.” His way of life is “superior”. I quote key passages from his most outspoken article:

<https://www.ucanews.com> October 11, 2019

Hong Kong Free Press, 15 October 2019 (CIA connected through **Mark Simon**)

Also, **Facebook**, all **Standwithhongkong** hashtags and websites.

“If this democracy movement fails, we should all be scared of what China will do next

I’m scared of how the radical protesters may undermine the democratic movement... But you should be scared of what China will do if the protest movement is unsuccessful...But in a thousand different forms, ranging from peaceful to pushy to violent, this is what Hong Kong protesters are saying: "We know what China is like, and we can't turn into that."

Why I agree with Hong Kong's protest movement

Until recently, Hong Kong people weren't willing to discuss China's problems openly... Instead, China's freedoms of speech, assembly and religious belief have all deteriorated significantly since **Xi Jinping** began ruling... Now, Hong Kong people can see how close they are to losing their liberties. That's why they won't stop yelling until they get full democracy...

And then, there's **China's Uyghur population**...Practically speaking, millions of people in mainland China are imprisoned, without even being in prison...

So, I'm asking foreigners to use their influence to speak up. Please get the ball rolling...If China backs off Hong Kong and keeps its promises about democracy and free speech, then we don't have to watch our freedoms and rights slowly disappear every year until we get old or leave Hong Kong. If we win, we can remain free...But let's say China doesn't back off Hong Kong. Right now, we are the only place in China with the freedom to show the world exactly what's going on here...

China will respond to ongoing, targeted international pressure. So don't be afraid of tanks rolling down the streets of Hong Kong. Be afraid of international figures doing business as usual with China, as Hong Kong protesters are imprisoned, fired, kicked out of school and slowly silenced into submission or suicide.

Hong Kong is the most public line of defense against Chinese authoritarianism... And even if you're someone who hates the protests, you should still hope they're successful... I'm on their side and I want them to win... And if you're a radical, violent protester reading this ... can we please talk? You don't have to throw things at the police to make your voice heard. And I'll do everything I can to make sure the world can hear you."

MY NOTES: I disagree with ALL his China Hater ideas, he ignores all the billions of dollars in TEXAS weapon sales to TAIWAN, and the deaths and lost jobs for the people of Hong Kong. Where does he get his money from? His biography: Joe Woodard, from Virginia, United States, taught English in China for two years before moving to Hong Kong in 2012. His many international charities:

Family Value Foundation of Hong Kong Ltd.

Asia for Life

March for Life

40 Days for Life, Bryan, TEXAS, 44 countries, 715 countries

Report 7: Jason Y. Ng & The Justice Centre, Power Over Migrants and Refugees By 100% Anti-China Forces, Shocking Bias

Hong Kong is a mostly Chinese city in a Chinese nation. It is also tolerant and international. However, when thousands of migrants and refugees arrive here, it is not unreasonable to expect that they like the country, China, that they choose to live in? Yet a screening process may take place, unknowingly, with a few non-profit groups and even church groups who prefer the Western nations to Mainland China. They use words like democracy, socialism, Communism, in a generalized way, that tells us they may like refugees and migrants who agree with their own political views. Or who are desperate for help, and out of desperation for basic needs, such as food, rent, medical and legal aid, will agree with the organizations in Hong Kong that claim to have no bias.

They say that Political Dissident is not a reason for entry, as they would have to admit they ONLY want political dissidents who AGREE with American and British interests in

Latin America, Africa, and other Asian nations. THE LAWS need changing. **The phrase Pro-Democracy or Pro-Beijing is a trickery of language.** What is we said Pro-Socialism or Pro-Washington DC, or Pro-democracy (Chinese style) or Pro-King Charles British Monarchy? This twisting of truth was shoved onto us in 1997 by clever lawyers.

Many nations in Africa, Asia, and Latin America have had major complaints with many larger and more dominating nations, not China. Countries abound in socialist, left wing, or right-wing parties. That men and women openly hostile to the federal government of China, the CCP, and its system, socialism or Communism, are so powerful in Hong Kong, may be unfair to refugees who were affiliated with leftist, socialist, anti-American, anti-British colonialism, or even China-favouring. There is bitter irony in the city of Hong Kong, that pro-Western groups, funded with foreign money, decide who is the Good Citizen here.

Jason Y. Ng, is a glaring example. Associated with the Justice Centre, helping newcomers to the city. **Eddie Tay** and **Tammy Ho Lai Ming** work with him.

Not only deciding on migrants and refugees, his power extended to being a father figure to the young **Joshua Wong**, and helping to write his speeches and book **Unfree Speech**. **Justice Centre** links to **Washington, DC**.

A shocking report of **November 7 2018** was helped by the **Justice Centre**, blaming China for troubles in **Hong Kong, Coalition Steering Committee** of this Centre. They are clearly ALL in support of the coming 2019 violent riots, and preparing to give the country that gives them freedom, safety, and superior housing to most people here, a bad image around the world. **News Release, online, HK UPR**.

Wong Yik Mo, Civil Human Rights Front, Benedict Rogers, Hong Kong Watch, Shirley Yam, HK Journalists, Isabella Ng, HK Society for Asylum Seekers, Annie Li, Migrant Workers from Indonesia and Philippines.

They are part of **HK UPR**, 9 groups:

PEN

Hong Kong Watch

Justice Centre

Civil Human Rights Front

HK Society for Asylum Seekers

Finally, **Simon Henderson**, a past leader and a lawyer at **Justice Centre**, seems proud that they have increased the **China** hating nations on a list of 12 countries in 2018. **He is living in CHINA**. What sort of lawyer asks Country A to pass laws for Country B? **The China Daily** has a good online expose of this man. **Pakistan, India, Indonesia, Bangladesh, Vietnam, Philippines, Sri Lanka, Nepal, Nigeria, Rwanda.**

We all have to LIE and support the Peaceful Protests stories, as well as possible war with Taiwan and America.

Or we will not be part of Hong Kong.

These liars must be identified as **Priming Asia for WW3**. And the billions they make

off over War Profiteering exposed to those who are naïve and underinformed.

Report 8 International Couple Defend Smashing the MTR

Lanceric Tse: Hong Kong * Vancouver, Canada * Southampton, UK

Lanceric Tse has three countries, **police technologies skills** (though he hates the Chinese police), two or more languages, and a female partner who share his political views, **Vicky Yats**. Yats has many language skills and areas: **Russian, Ukrainian**, etc.

Facebook October 6 2019: “I made a list of the atrocities of the (HK) Police Since the protest started 4 months ago...” **NOTE: He is at many or ALL protests.**

Facebook October 10 2019: “It seems that most expats can't relate to why people are furious with the MTR, and I understand that. It's supposedly one of the finest railway services in the world and the best way to get around this city. However, there's more to it... To conclude it, it's a privatized company that put profits over the public, has a known history of wasting tax payers' money, and supposedly colluded with police and triads.”

Report 9: International Couple Defend Violent Beating of Cab Driver

Vicky Yats, partner of Lanceric Tse

This woman is **extremely violent** in her writing. She is intelligent and well educated, as she speaks **four languages**. She is listed as a friend of Lanceric Tse. She is cruel in her attitude towards violence to innocent civilians in the city of Hong Kong. According to

her, we deserve what we get, if we do not agree with the violent protestors who arrive from other countries.

Facebook **October 1 2019**: **LIES** about police. **Vicky Yats** says:

“HK police civilian toll for just today:

- shot a teen in a chest with a real bullet
- shot an Indonesian reporter in the eye causing blindness
- punched an already restrained woman in the face
- shot a man in the hand with a real bullet (allegedly)
- broke first aiders arm
- shot at reporters
- attacked a random couple walking outside
- using protester as a human shield-
- beating a protester on the head with a baton until unconscious causing brain damage and memory loss”

She says she works at **COVET FASHION** which seems to be a computer game! **But she was at the protest of the violent beating of the cab driver. He drove towards protestors, and she calls it a “terrorist act”.**

OCTOBER 6 2019 PROTEST Henry Cheng Kwok-chuen beaten by mob outside the Cheung Sha Wan government offices, YATS is now disappearing on the Internet.

Vicky Yats has a Russian/Ukrainian background, speaks both Russian and Ukrainian, and her partner is both Chinese and British. This couple could be active in other wars.

Report 10: Madison Spencer Shelton, Wealthy Foreigner, Luxury Cars

He was active at **July 21, 2019 Violent Protests Yuen Long West Rail**, “Pro-government thugs have rushed into Yuen Long West Rail station, attacking citizens dressed in black / deep-color clothes...”

Report 13 Isabella Tam “today a female protestor was shot in the eye” *

Facebook: No friends, no photos, no information.
From Hong Kong, Lives in Hong Kong.

A sham account, to look like a lot of people “hate” China. She was at a famous riot that more information is needed for. The eye blinding protest in 2019. The small language errors are typically Chinese. The writer is most likely Chinese.

“Police using excessive violence on protestors in Tai Koo MTR station even though protestors were evacuating.

What happened around HK today?

- shooting protesters with some kind of bullets from a close distance
- dragging protestors who were already evacuating and pulling them to the ground
- bearing protestors who were already secured onto the ground.
- a female protestors was shot in the eye and a frontline doctor has declared that she has lost her sight of her right eye permanently

- police put a bamboo stick into a protestor’s backpack after he’s been arrested (with video: <https://www.facebook.com/753523274/posts/10158746973748275...>)

- police dressed up as frontline protestors and arrested frontline protesters

☺ This government and the police don’t care about public safety anymore but cares more about silencing the voices that strive for democracy and justice.

✍ Thugs in white tee- shirts in Yuen Long on 21/7 are still not charged with attack but only illegal assembly, while many black tee-shirt protestors are arrested and charged with multiple guilts.”

- This may be dubious information, as she could be a man. I include this, due to she was at a famous protest.
- It may be possible to trace her through Facebook and the Way back Machine. She tells many lies, and hides her true identity.
- She links to another account.

August 31, 2019, Prince Edward riots, including 10 PM fights in Prince Edward MTR

His Facebook post on October 5 2019 celebrated total destruction of a 360 Store, and condemned women seen picking through the rubble of the store. Another poster criticizes him, for celebrating the violent wreckage, criticizing onlookers.

“No matter where they live. They just can't change their behavior. China aunts stealing thing after the store was attack by the protestors.”

Facebook Post September 1, 2019.

“At the HK Airport, one officer chased a male protestor who attempted to seek refuge in the male toilets. HKFP footage showed how the man tripped & was beaten by the officer...”

Facebook Post August 31, 2019.

“To people all around the world, We, Hongkongers just experienced a terrorist attack planned and executed by our Hong Kong Police Force. At about 10pm today, our police force rushed into our railway system at the Prince Edward station, got in to the carriages and indifferently beat up all the people in it regardless if they are protesters or simply passengers. They ignored the weapon guidelines and fired tear gas indoors in the carriages...你咁樣我係唔會驚嫁!”

Report 15: James Zidek, Vicious Propaganda, Facebook Lies of Police Killings

“Is it possible that police are dragging away the victims in order to hide the corpses in case they die?”

2019 Facebook: No photo of him, no friends, an old account with only Nature Photos of

in it. Appears to know Hong Kong for some time, has 4 bank accounts listed.

“Spotted last night, first time I’ve seen this. Guess that even paramedics are afraid of being attacked by police these days.”

June 15, 2019

“There is a lot of footage of riot police dragging away unconscious protesters after shooting them. I am extremely concerned for them. Does anyone know what happens to the injured after they are taken behind police lines? Is there any way to track what has happened to the protesters?

Is it possible that police are dragging away the victims in order to hide the corpses in case they die? Rubber bullets, bean bag rounds, and tear gas are classified as non-lethal weapons, but regularly kill, especially when aimed at vulnerable areas as they were yesterday. Appreciate any insight, this is very worrying.”

“Typical Chinese Communist, dumb and violent.”

There may be only ONE James Zidek. He is clearly TELLING SERIOUS LIES, and therefore is a Government Agent. We include the one profession; does it connect with WW3 with China? This work needs help from others. He is an older man, grew up in the Cold War.

James V Zidek, Professor Emeritus and Founding Head of Statistics at the University of British Columbia, obtained his PhD at Stanford University.
