NO Passport NO Visa Forces Me To NO Citizen Rights: I Am Stateless!

I have fought repeatedly to get this small group of Canada Consul workers looked into. These deprivations make me **STATELESS**. This is a violation of **ALL** International Law. **NO VISA** that causes us travellers or business visitors to be arrested, jailed, **NO VISA**. I am the one who is blamed!

Read what I have lost, been deprived of:

- **HOUSING** I cannot rent an apartment
- **HOUSING** I cannot pay for a hotel room
- **HOUSING** I cannot take a campground space
- **COMMUNICATIONS** I cannot receive mail to a post box
- **MONEY** I cannot receive money sent by mail from helpful friends or family

- **HEALTH** I cannot receive prescriptions, after hospitalizations, from emergencies
- **HEALTH** I cannot see a dentist, under most circumstances
- **MONEY** I cannot work, and earn any money at all
- **LAW** I cannot take a legal action, against wrong doers, that is the aggressor position
- **LAW** I can receive legal aid, if I am in the defensive position, which is subsidized
- **FRIENDS** I cannot do volunteer work, to repay dozens of kind citizens who want to help
- **WORK** I cannot have a library card, a writer who promotes HK China 1500 page website
- **WORK** I cannot use a computer room at a library, to print, to make copies of this story
- **FRIENDS** I could not go to weddings funerals celebrations of friends in other countries
- **WORK** I could not go to summer school ESL teaching in other areas, never work in HK
- **WORK** I cannot sell my beautiful paintings online, as I need a Mastercard Online Card, a low priced necessity to pay vendor fees, it requires a PASSPORT
- **MONEY** I am given NO money at all, by the HK Government, "You are not a citizen"
- **MONEY** I see others receiving small monthly payments, "You are from a rich country"
- **LAW** In the case of any crime against me, I am FROZEN, as I am the WRONGDOER
- **NO Passport** means **NO Visa**, and that is the bigger crime, in many countries

You may like me or dislike me, you may find my story interesting or boring, but if you work in any career that involves fairness, law, ethics, morality, kindness, is it not enough I have LOST 3 years of my life, should I be blamed for this NO Passport NO Visa? And yet those denying me, manipulate the story's ending with a Blame The Victim coloration. You see, consulate workers who blatantly defy a court order to give me my passport by January 28 2019 are Above The Law. Or they believe that.

NO, it is not, and with my last small vestiges, of energy - I cry as I write this, yet edit several hundred pages, of supporting documents - I speak to you, as clearly and calmly as possible. It began with a small illness causing a few days of Visa Overstay, around the same time, my Canadian Passport came up for renewal.

I did not know that I would be entering the worst fight of my life, a fight in which everything depended on the ability to fight back against a wrong, NO Passport NO Visa. Against people who tell the city around me, we are protecting and helping her, a city in awe and in trust of the Canada Is Perfect mythology that I too grew up believing.

I had an idyllic early childhood, my father was a flight dispatcher for Air Canada, called TCA then. We had free airline tickets, and travelled to Europe, and the Caribbean. He was an early Ban The Bomber and later became a world peace activist, speaking at international conferences. He worked for the rights of China to be part of the United Nations. My mother was a housewife, who made me doll houses on our kitchen floor, and taught me how to save ladybugs and ants by gently sliding a piece of paper under their fragile limbs.

In Hong Kong, feeling so bereft of any monitoring or investigation of NO Passport NO Visa, I meditate, and pray, and think of any strength that I may have inherited from my ancestors. I am a realist, and know my handicap, as an Empath, prone to anxiety attacks, is considerable.

Voices Of My Ancestors: On Fights And Fighting: My Mother

I am three years old, it's a boiling hot summer day in Montreal. My mom dresses me in a pastel pink romper suit, with blue and green drums as a pattern. To protect my face from the sun, she ties a matching ruffled sun hat beneath my chin. And off I go on my red tricycle, daringly round the corner into the street behind Rue LaPalme.

I look up to see the neighbourhood bully, a head taller than me, spot me from his back porch. He spots me too, a smaller, solitary child. He darts quickly in a diagonal line straight for me, as I

wonder what to do. Next he yanks my sun hat off my head, leaving me to burst out crying, his mission accomplished.

I turn and wheel to the safety of our large kitchen, where my mom is making coffee in a percolator, and buttering Danish pastries, just bought from the Pom Bakery truck that home delivers. My mom is concerned for me, but her advice surprises me.

“You have to learn how to fight back in life,” she says.

Does she want to be like that evil brat? I mull this confused thought over in my mind, as she brushes my hair, and adjusts the pink sunhat. She can be soft hearted too, she teaches me how to save ladybugs and ants, as I hate to see them stepped on, by gently slipping a sheet of writing paper under their tiny legs, and tossing them onto our green front lawn.

I am an Empath, a psychological definition I will learn only recently. As she continues, her thoughts on standing up to bullies, I advise myself to wheel myself in the other direction, back along our own street, where I know more friends and mothers.

The Court Order Of December, Give Us The New Passport By January 28 2019

In a crowded and lively Kowloon courtroom, full of competent legal professionals, I sit and watch a sturdy prosecutor approach the judge respectfully. She delivers the message to the judge that the Immigration Department of Hong Kong wants the Canadian government, as represented by these women I reference elsewhere, to supply my new passport by January 28 2020.

This is a court where smaller or earlier cases are heard, I think, as there are groups of barristers with their individual clients. Recordings are made in two languages, Chinese and English. And three languages or more may be involved, at least we have Mandarin, Cantonese, English. It is key to understand NO Visa is what JAILS us in foreign lands. Not NO Passport.

My excellent legal representation hears this. The other barristers hear this. The court reporter writes this down. The judge and the prosecutor agree. Is this not proof of something? I will refer repeatedly to the need to RESPECT this decision, in writing.

Yet why should I have to do all this work? My intuition as an endangered animal in the Human Jungle alerts me as the year of 2019 passes with no speed at all from the Canada Consulate that I am in terrible danger.

I am the one who respects this idea, to hurry my passport, and my visa.

I am the one who makes written records, and will suffer horrific losses of all my parts of my life in Asia for 25 years, if these sheltered dual citizens at the Canada Consul do nothing.

Yet they do nothing, and though they disobeyed the Immigration Department, they are not penalized, they are on some unique logic: Blame The Victim, and get into major disaster, JAIL and/or DEPORTATION for having NO Passport, NO Visa. If this is implied, I want a Real Courtroom, to clear my good name, and receive recognition of the injuries done to my life, I am a Career Person, a Worker, deprived of career still:

5 Meetings To Get New Passport, 4 With Witness: Signed Affidavits

I cannot edit the description of Visit 2, Visit 3, Visit 4, and Visit 5, as I had the foresight to take a witness with me, utilizing my health as a logical explanation. Truthfully, I was also fearful of not having a record of the visits, after the shocking Visit 1 of February 6, 2018. My witness signed the following descriptions, I amended them with notes.

2001 - 2016

- Many passports in Asia, not only in Hong Kong, no troubles with other areas
- Cindy Chung was pleasant to deal with, at Hong Kong Consulate, she did not want me to put WONG, on my passport, my married name. There was also a serious crime attempt just after I picked up my passport from her, a white man and his step-son, both convicted criminals in Hong Kong and Australia. (Edited out, separate PDF.)
- I had several passports from Cindy, she was so sweet, it is sad others moved my files to Suki Yan, a younger woman, in 2019.
- Both Cindy and Suki Yan consulted with an older woman, Connie Wong, who had a dominant personality. I assumed shis a manager.

December 2008 - January 2009: Cindy Chung

- Denial of standard passport, under married Chinese name. I assume this is more work. Agent **Cindy Chung** is firm, and always courteous. We have a marriage certificate.
- Robbery attempt, within a few days of receiving my first passport from **Cindy Chung**, HK Office, upon both me and husband, **police records** filed by me in 2 languages. Two male criminals have serious records, in Australia and Hong Kong; multiple offenses.
- **Records: police records.**

January 2016 - February 2016: Cindy Chung, Connie Wong

- **Denial of standard passport, under married Chinese name**, by **Cindy Chung**, which becomes a prolonged discussion. Canada allows Gender Change from Male to Female, Female to Male on passports. I persist in wanting the name change.
- A second more aggressive agent enters the story, **Connie Wong**.
- **A cash gift and a better passport is offered to me, NOT to change the name on my passport.** Cindy says, we will waive the guarantor fee if you take the 5 year passport, under your single name. **I will charge you more, if you take the Wong name. And will give you only a 2 Year.**
- **Payment is for 5 Year, we receive only a 2 Year. Passport February 12.**
- I fought politely and kept all the written records. I cited the Human Rights Laws of Canada, that this was discrimination on family status, bias to women. It is risky for women and men as travellers to be seen as “unmarried” in some countries.
- **Records: emails, citing human rights law.**

February 6 2018: Unknown Agent, “You Must Be A HK Citizen To Get A Passport”

- **We have changes now, I need proof you are a Hong Kong citizen to give you a Canadian passport. You need Photo ID showing you are a Hong Kong citizen.** My passport falls due on February 12. This is an impossible new rule, and the pixie-faced rude woman is new to me. I am travelling and living in other parts of Asia as well, and enter and leave Hong Kong over 100 times on a Tourist Visa.
- If a Canadian is robbed of their ID, surely you would have to help them? *No, I would not.*
- This is when the agent does something bizarre, that I recall as a more important detail, she pretends to look at her computer screen, as we close our meeting. It is not a needed gesture.
- She knows I am worried about the Visa being later, if the Passport is late, and she says, "I don't see you on the Immigration screens" or words to that effect. I am so naive i think that she is reassuring me, we have no trouble with Immigraation. I think now she is just sowing more confusion. This is an ID Erasure manipulation, I later wonder.
- How can I get more Hong Kong ID, when the passport expires in a few days?
- **"Do not come back here without your Hong Kong ID, or you won't get past the security guards at the door."**
- **Record: oral confidences to the first barrister**, telling her the root of my nightmare began with CANADA, not HONG KONG, nor CHINA. July 2018. I feel my health quickly worsened, yet do not want to look weak in a fight. I tell my barrister.

"You won't get past the security guards at the door."

- I should have done something about her rudeness, I should have fought that, I feel other friends would have been braver, bolder, more confrontational, I was so weak
- I had had only collapse in January 2018, but my health was full of anxiety and worry, and suffered more as I was unable to supply what they asked, as my health worsened, I had the two parallel nightmares of NO Passport and NO Visa running along side of the anxiety and fear causing weakness and cowardice in confronting this Catch 22 problem.
- I will close my relationship with these women with a second threat from agent SUKI YAN in January 2020.

I want the name of this worker to be known, as I kept the time slip. She had short hair, with a pointed pixie like face, younger than the 2 more senior agents, However, she did compel me to have a witness with me, when I returned for my last 4 visits.

The sweeter Cindy Chung had many records of my identity, why did she remove herself? I don't know.

The following I cannot edit or re-write, as it is signed and witnessed some months ago, the three women are myself, my witness, and Agent Suki Yan.

4 Attempts To Get New Passport, 2019, 3 Women:

Meeting One, January – February 2019

I meet at Quarry Bay and am hopeful the Canada Consul will cooperate with the Court Order to supply my renewed passport by January 28, 2019, the deadline given by Court Order of December 2018.

The meeting does not go well. Suki Yan wants my Birth Certificate from Canada, though the office has done 4 earlier passports. She also wants more proof I am a Hong Kong citizen, which is a Catch 22, as I have overstayed a Tourist Visa, due to illness, and just been acquitted by the Hong Kong Courts. Two new problems.

I am hopeful at start. The courts gave me much legal ID.
I have Courtroom Hearing records! Not acceptable, says Suki Yan.
I have lawyer payment records! Not acceptable, says Suki Yan.
I have bail receipt records! Not acceptable, says Suki Yan.

Finally I harp back on my Marriage in Hong Kong, it shows both married and single names. She repeats what her seniors told me in 2016: Your marriage certificate is NOT proof of your Identity. We close the meeting politely with my plan to contact my husband in Vancouver, to try to get my birth certificate.

2021 Later Notes:

Meeting Two, January – February 2019

I ask Suki Yan for help with Birth Certificate. The Quebec agent tells me to have the Hong Kong Office call him. Suki Yan explains that this is not Protocol. My husband has 2 citizenships, phone bills, internet bills, many credit and bank cards, medicare card, and lives with aged Chinese parents he cares for. Our first effort to get my birth certificate stalls, because the Quebec agent notes the first utilities bill is in the name of my old father-in-law.

My husband offers to send more proof, and also a Rush Order, but the Quebec agent stalls.

We also look into more Hong Kong Citizen ID. The three of us discuss what I can get with NO Passport NO Visa.

Suki Yan suggests a Shenzhen Driver's License, I wonder if she is new here. She is younger than Cindy Cheung and Connie Wong. "I need my passport to cross the border into Shenzhen," I remind her.

I am reminded of one ID piece I have, a HK Immigration Border Crossing record. I have made roughly 100 border crosses: NO problems until this blockage of my Passport.

We are all patient, though the Courts wanted my New Passport and the date was January 28 2019. We close the meeting with my plan to keep pushing for my Birth Certificate. Fiona also wonders if I can get a Police ID card, as I am on good terms with them.

September 25 2020, Hong Kong SAR.

Meeting Three, Late April 2019

Victory! After I write to BOTH Canada Consulate offices, asking as tactfully as possible, Do I have to go to Court in litigation to get my Passport? Suki Yan does a total turnaround.

She does not mention the need for Quebec Birth Certificate. She does not mention I have to be a Citizen of Hong Kong to get my Canadian Passport.

We have a happy meeting at Quarry Bay Canada Passport Office.

It is very simple and I write what she needs, I want it CLEAR.

She says, Bring 2 things: 1200 CASH, new passport photos, and new Guarantor signatures.

TWO YEAR Standard Passport, she says. I try for a 5 or 10 year.

She even says, There may be some financial aid for you.

Fiona and I are happy. Our prayers have worked. She takes me out for a treat of Italian spaghetti and double coffees at the nearest Café de Corale we can find.

September 25 2020, Hong Kong SAR.
Eleanor Wong:
Fiona Chan:

2021 Later Notes: This is the one and only happy talk I have, after I threatened litigation to the Higher Office, the Lower Office pretended to act fast. I feel they wanted me arrested later, and jailed for Visa Overstay, and were just Buying Time.

Meeting Four, Mid – Late May 2019

I have cash, photos, guarantors: Canadian teachers
Suki has new requests, we cannot finish application today
She says ONE Year passport only, many changes!
She wants the tiny white border crossing slip into Hong Kong
She wants a handwritten note, from me, stating as to why I want a Canadian Passport

She takes my old passport, yet does not give me a paper receipt, after a few minutes I ask to retain it.

She accepts that, and says it is okay I keep the old passport
She is very polite, and says she will get things started anyway
I take her email, direct phone and email, to see if I can find the white border slip

I want to pay CASH as I worry I will run out of money, she says it is not necessary
I give her the application, she gives me NO receipt for the Time Pick Up Date, due to her need for a few more documents
I ask about aid, she says aid is only if I show a full air fare to Canada

Meeting closes with her wanting to get started on processing, and me realizing I cannot go on with all these meetings. I have done all I can do. So many people are trying to help me. I keep records of trying to Obey The Courts, to show respect to the law.

September 25 2020, Hong Kong SAR.

Eleanor Wong:

Fiona Chan:

2021 Later Notes: The ONE detail in this story I want you to READ

... **She wants a handwritten note, from me, stating as to why I want a Canadian Passport...** I look startled, as this is very legally sophisticated. In my words, in my writing, on my paper, I am saying that I am NOT already a Canadian Citizen. Are they using the confusion between the two names I have had, the English name and the Chinese name?

June 2019: One Phone Call Is Made To My Passport Reference! So Happy

I had no idea that things would again worsen, but I was surprised that **Suki Yan**, or whoever checks our references, on our passport application forms, was so slow. We began in late April, and my good Canadian friend talked with me around June 12 or June 13, to tell me that the Canada Consulate just called her for a reference check.

Always mindful of the Hong Kong Immigration date of January 28 as the final date for the new passport, I was worried at the slowness, and had accepted the loss of all my pensions after the early May date. I should have been faster perhaps, a long time ago.

Perhaps I am too easily satisfied, I was happy the passport was begun, and friends who cared to extend their help to me, with talk of future plans. Amanda, my young teacher friend, offered to give me free horse riding lessons, if I helped with English lessons, in a fun start-up project, combining horse riding and ESL. Our families once lived in the same area of rural Ontario. Barbara, my childhood friend, wanted to see me at Christmas.

I wanted my Freedom, and to be a Working Person.

Little did I know, the plan was Nothing.

July 2019: Still NO Passport, No Work Is Done To Speed Up Court Order

Later, I will wonder if the phone call to check my references was the ONE thing that was done in the entire year of 2019 to speed up my passport.

Nothing is done this whole month.

Late April, she waived the extra requirements that had dragged the application from early January to late April. It began. By June, the first phone call was made. Silence and nothingness all July. ALL other passports were 6 - 8 weeks.

Was the one phone call just to delay my worries, to hold me here longer and longer, until I have more trouble, with a second government agency, of a second country?

I do calming exercises, but the stress builds and builds.

After the courtroom victory of January 3, my health began to mend. I am beginning to cry sometimes, but keep it to myself, I am a Working Person, and do not want to be seen as a Female Victim.

August 2019: Still NO Passport, I Threaten Litigation, And Fracture My Foot

Suki Yan has no passport for me. We began in April. It takes 6 - 8 weeks, she could also give me a short "waiting" passport so I could rush in and out to renew my visa through the Shenzhen or Macau borders: I have crossed them 100 times, and have had a good relationship with Immigration, prior to **Suki Yan**. It is now half a past the January 28 Court Order date to supply my new passport to Immigration to obtain my needed visa. My helper and I contacted HKU student legal clinic, to see if I can go to court to get the Canada Consul to cooperate. (Yet this is to draw attention to the lower level workers, as I cannot believe **Jeff Nankivell** or others I sent registered letters to, would disobey a Judicial Order. I do not know what to do.)

We cancel my appointment, as I fall and break a bone in my foot, the same foot that has had several sports injuries. I wear a cast, and continue to worry, writing letters, as records. Of

course, after my hospitalization, due to **NO Passport**, I refused the concerned medical team's plans for follow up care, and physiotherapy.

September 2019: You! You Don't Have A Lawyer!

Suki Yan knows I am threatening court action, and our relationship turns bad, as she openly expresses anger for me. She is my SOLE government in a country of a billion and a half people: I hope, dear readers, if you bore at these grey details, you will see the larger picture, of our dependence on our Consulates and Embassies, and the unlimited powers some unsupervised employees take.

In a telephone call, she says, ***"You! You don't have a lawyer!"*** Her voice is full of emotion, unusual for a government bureaucrat, and the feeling is thick with scorn. Knowing I am in utmost danger, I say nothing. With clarity and dark humour, I am almost glad to see her true emotions spring out.

She is Canadian? There is Legal Aid. How bright do any of us need to be, to know we need lawyers, when we are in danger on our travels. Does she come from a background where there are only lawyers for the rich? My office file shows I began as an English teacher in rural Asia, and though I only earned \$400 a month, my life was full of new friends and adventures.

The rules for the Passport Type change again, ***"You won't even get a One Year."*** But she implies Ottawa tells her what to do, which I doubt.

I am now left with this One Relationship as my Government in China, this one person can decide my Life Story, how the Chapters go, how the Story will end, or that is what she seems to think. If you think I am being dramatic or self pitying, please re-read what happens to a **NO Passport NO Visa** human being, in a world full of people, well intentioned, kind hearted, helpful, who repeat, Canada Is Perfect!

Canadians Are Nice!

October 2019: Suki Tells Blatant Lie To Immigration, "We Can Rush Her Passport Over."

With my foot in a cast, I talk with Immigration, and at first, I feel confident my problems will be resolved. At this time, I am friendly with Immigration, with my barrister, with even the police, who do not want to plug up the courts, when they have serious matters, due to recent protests. The young staff may not know that defying their own court order has led me to such a collapsing state: no money, no right to work. Mr. Lui is good humoured, and smart: he asked for proof the passport was ready.

"She said she would rush the passport over, to us," he said.

"But she would not send us the title page." Or words to that effect. We laughed together. He reassures me, "Miss Yan says the Higher Ups are very concerned for you."

I wonder what prompted that lie. It implies wrongfully that I have financial aid, as I find out many others receive small monthly allotments from the Hong Kong government. I have none. Mr. Lui and his also young female assistant are respectful and helpful to me, as the police have recently been. They bring me bottles of water, and even a noodles and vegetables lunch.

In retrospect this is terrifying. It suggests to me that she wanted me at the Jail, and that there is NO Passport. She has defied the Judicial Court System, and now tells a Blatant Lie, recorded, witnesses, and no one does anything to protect me.

November 2019: I Collapse In A Medical Centre, Again Hospitalized, No Passport Still

After Suki Yan told Immigration that she could rush them over my passport, a LIE, the passport is not ready for me. Only for the Immigration Jail area.

My agent changes in November to a new young woman who seems respectful of Suki Yan as a younger female and this worries me. I collapse as the lie of the Rush Passport to the Jail area may affect me. In late November I am again hospitalized for syncope, and receive fine care. I am told not to ever walk on busy roads. I make records. I tell Immigration, but again the denial of follow up care, as I do not have this alleged rush passport yet.

December 2019: I Black-out, Head Gash Requires Stitches, Passport Not Ready

After Suki Yan told Immigration that she could rush them over my passport, a LIE, the passport is not ready for me. Only for the Immigration Jail area.

Later in December, this woman will refer to my passport as **Pending**. A total contradiction to the Rush Passport of October, as told to the helpful Mr. Lui.

Witnesses, written proofs, all ignored here. Her tenacity and confidence amaze me.

“The Canada Gang” says an affluent Chinese neighbour, “May be more powerful than The Police Gang. aren’t you worried for your friends?”

I fall onto a hard floor creating a bloody split on my forehead. About the middle of the month. Even Immigration does not tell Suki Yan what to do, she is powerful. She LIES to them, as I am unable to get stitches my wound, because I have NO Passport.

I received treatments before as ambulances were required, which qualifies as emergency care. When I gash my forehead, it is night time, and I do not want to go outside, and the bleeding is quite steady. I just want to lie alone, and wait for the wound to improve.

I send photos as a last futile cry for assistance to both of my agents. No Passport.

The second major event is a happy one.

Two younger Shenzhen friends offer to send me money on WeChat payment systems. They are friends of more than 20 years. The men were my teaching assistants at Crazy English in Nanning, and I knew them later in Shenzhen and Guangdong. “However much you need,” offers Clark Wang, CEO of Rainbow Education. His girlfriend Arya invites me to live with them when I return to China, to help me start up again. The other friend wants me to spend Spring Holiday with his family in a village in beautiful Guangxi Province, where we all began our teaching so many happy years before.

I am a cared for person, but badly disconnected.

The women refuse to receive WeChat to pay for my passport, as the rules limit that.

January 2020: I Enter Freeze State, And Think There Is Id Theft Somewhere

After I become more assertive, and mention to the Quarry Bay women, Cindy and Suki, I am worried there is ID Theft, an email from the new agent at Immigration asks me if I want to pick up my passport there. I can go straight there to the Immigration Jail. No passports are delivered to Jail Areas.

I do not believe there is a passport, it is a conversation we have with ourselves, weighing all the events that have gone before, there was no more documentation given to SUKI YAN than in the same month that the Court Order occurred.

If any of you think I should NOT have stopped trying, look at all I did. Others were PAID money to do the work I did on this, and I doubt this story would have happened in Canada, or even Mainland China, where there is more federal oversight. I enter FREEZE. Please look at the Health Photos PDFs I am putting up soon. I want my health back, and not to live in terror.

Neither myself nor any other Canadian nor Chinese agency gave new data, new information, new documents to Suki Yan, Connie Wong, nor Cindy Chung.

My logical deduction is that there were two choices for thought processes to mull over:

1. They never gave me my passport for 2 years, as it was sold or used elsewhere
2. There was a passport for me, but they took 2 years to give it to me, instead of 2 months, out of active dislike of me, for reasons unknown to me

Not being paranoid, crazy, or that dislikable, I could only assume some ID Theft.

Legal disclaimer: I am not saying that one of these women was involved. I cannot get this looked into.

Laws Involved, Of Being Made Stateless, NO Passport NO Visa

I believe that at least ONE law has been broken in the refusal to give me my passport, to manipulate me into such danger. I do not think lower level workers in a consulate should be protected by endangering a citizen to such a degree.

If my attempt to file a charge is rejected, in Hong Kong, I can try a second time, with a private prosecution. I am not foolish, and do not blame most people, just the agent most responsible. I want to repair my relationship with the Immigration Department, as I have lived in Asia 25 years.

If you are a legal professional, please help me to find one small wrong that I can charge as a defensive tactic, to show the Immigration Department, the region of Hong Kong SAR, and the federal government of China, that I tried to so hard to honor the court ruling to quickly obtain my Canadian passport, the court order of December and January, 2018 and 2019.

Please help me, for the court order depended on TWO parties, myself and the second, the Canada Consulate, who eludes all responsibility, and I could not obey without the participation of the second party, the Canada Consul.

Three levels of laws, local, national, international:

Local law, treatment of older citizens.

Money: I had friends who wanted to send money to me, and the Canada Consul women ignored their own guidelines to receive money for me. I could not use Western Union with NO Passport. I have had NO money aid, though ordered never to work. With no aid in receiving funds sent to me from other countries.

Health: After my hospitalizations for physical illness, not fatal, not contagious, I sadly refused follow up help, appointments, check ups, and prescriptions, from kind and caring local doctors and nurses. It did not fit the rules, which required a passport to be shown.

Fairness: Many people in Hong Kong, friends, doctors, nurses, and even police and Immigration workers have been very kind to me, as an older person: my criticism is of the No Passport No Visa ordeal.

National and international law.

Double jeopardy, I was tried and fully acquitted in court, though I did admit it was wrong to overstay, my illness and clean record helped explain. I cannot be punished and deported due to the continuing refusal to give me my renewed passport. I am so anxious I cannot go near the Immigration Centre, as I feel Suki Yan wanted me to be deported to cover her own errors.

The United Nations, articles.

Freedom of movement, though the flu panic limits us lately, I was stopped over three years ago from working in other areas, and have missed weddings, births, and funerals of loved friends in other geographical areas. My emotional losses are tragic, and omnipresent. Please read my personal career and references section. **Ban on degrading treatment.** It is mandatory to have nude body searches in some Immigration Centres, and I am terrified of this. (I do not want to overly criticize our Hong Kong regulations, as the root is with being denied my CANADA passport.) **Right to privacy.** This is not a worry to me, as being Stateless is the larger issue. But Canadians in Canada do not understand the awe in which our country is held, and how the Consulate becomes like an acting head of state for tourists and business people. I may want a Higher Court when I have a serious problem abroad. **Right to presumption of innocence.** My fear of Suki Yan directing me to Passport Pick-Up at the Deportation Jail, rather than the Canada Consulate applies here.

One clear FACT:

The Right To Nationality:

I have **NONE**, and I need help, not punishment. I cannot get it from the place you all tell me over and over again, to turn to, to ask for help. Ask the Canada Consulate!

Readers, Help Me Avoid Jail; Give Me A Real Court To Fight This

I want you to see that there is something seriously wrong with my fight to get my passport, that I tried over and over again to make Suki Yan and her team show respect to the Court Order on behalf of the Immigration Department. Spare me taking the blame, I am NOT a scapegoat. Is it not clear where the responsibility lay?

In the past year, the wonderful people coming forward to help me see a better story here for myself, if I can solve this NO Passport NO Visa.

Specific Help:

The Immigration Department:

I had no troubles in over 100 border crossings, and a good relationship with Immigration.

Healing Time:

I have lived in 24/7 fear as a STATELESS NON-CITIZEN. ALL my support groups, friends, are in the Shenzhen and Hong Kong area. I have had a job offer in Asia from a CEO.

A Standard 10 Year Passport

A Visa that matches the time on the Passport

And in the best tradition of the Internet, I ask you all, to share this story, and by your awareness to help me create a better ending.

I thank you, whoever you are, and wherever you are, in this world.

She is a very well traveled person who is into visual and audio art as well as recording her own personal experience in her many trips and adventures she had traveling either with me, by herself or with some other group of friends and acquaintances she met along the way.

She is the author of many books from a wide range of subjects which include politics, art, philosophy, meditation and international travel. She's honest, objective, up front and not afraid to give her opinions on the many subjects she is interested in.

Travel, art and meditation are her specialty which she has in depth knowledge of having spent many years in China, studied art as her major in college and spent many years practicing with gurus and masters in the esoteric art of meditation. She is highly recommended if you want to learn about these specialty subjects or am interested in her books and want to publish her works.

I truly believe at least one wrongdoing has been done to me, and I know that in Canada, I could have had these workers removed at a much earlier point in this nightmare.

I want to allay the troubles they cause me with so many other departments of government, by bringing one small charge against SUKI YAN, and perhaps her manager, if she was directed to her actions by another party.

DOUBLE JEOPARDY, A Basic Principle of Law Around The World

Double jeopardy is a procedural defence (primarily in common law jurisdictions) that prevents an accused person from being tried again on the same (or similar) charges following an acquittal in the same jurisdiction. A variation in civil law countries is the peremptory plea, which may take the specific forms of *autrefois acquit* ('previously acquitted') or *autrefois convict* ('previously convicted'). These doctrines appear to have originated in ancient Roman law, in the broader principle *non bis in idem* ('not twice against the same').

International Covenant on Civil and Political Rights

The 72 signatories and 166 parties to the International Covenant on Civil and Political Rights recognise, under Article 14 (7): **"No one shall be liable to be tried or punished again for an offence for which he has already been finally convicted or acquitted** in accordance with the law and penal procedure of each country." However, it does not apply to prosecutions by two different sovereigns (unless the relevant extradition treaty expresses a prohibition).

United States

Main article: **Double Jeopardy Clause**

The ancient protection of the Common Law against double jeopardy is maintained in its full rigour in the United States, beyond the reach of any change save that of a Constitutional Amendment. The Fifth Amendment to the United States Constitution provides:

... nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; ...

European Convention on Human Rights

All members of the Council of Europe (which includes nearly all European countries and every member of the European Union) have adopted the European Convention on Human Rights. **The optional Protocol No. 7 to the convention, Article 4, protects against double jeopardy: "No one shall be liable to be tried or punished again in criminal proceedings under the jurisdiction of the same State for an offence for which he or she has already been finally acquitted or convicted in accordance with the law and penal procedure of that State."**

All EU states have ratified this optional protocol except for Germany, the United Kingdom, and the Netherlands.¹ In those member states, national rules governing double jeopardy may or may not comply with the provision cited above.

Member states may, however, implement legislation which allows reopening of a case if new evidence is found or if there was a fundamental defect in the previous proceedings:

The provisions of the preceding paragraph shall not prevent the reopening of the case in accordance with the law and penal procedure of the State concerned, if there is evidence of new or newly discovered facts, or if there has been a fundamental defect in the previous proceedings, which could affect the outcome of the case...

NO Passport No Visa: "Lack Of Appropriate Action, Where There Is An Expectation of Trust Which Causes Harm Or Distress To An Older Person"

“The definition developed by Action on Elder Abuse in the United Kingdom and adopted by the International Network for the Prevention of Elder Abuse states that: “Elder abuse is a single or repeated act, or **lack of appropriate action**, occurring within any relationship **where there is an expectation of trust which causes harm or distress to an older person.**” Such abuse is generally divided into the following categories:

Physical abuse – the infliction of pain or injury, physical coercion, or physical or drug-induced restraint..

Psychological or emotional abuse – the infliction of mental anguish..

Financial or material abuse – the illegal or improper exploitation or use of funds or resources of the older person..

Sexual abuse – non-consensual sexual contact of any kind with the older person..

Neglect – the refusal or failure to fulfil a caregiving obligation. This may or may not involve a conscious and intentional attempt to inflict physical or emotional distress on the older person.

This definition of elder abuse has been heavily influenced by the work done in Canada, the United Kingdom and the United States. Studies conducted in China (Hong Kong SAR), Finland, Greece, India, Ireland, Israel, Norway, Poland and South Africa have approached the topic in distinctly different ways. **In countries such as China, that emphasize harmony and respect within society, neglecting the care of an older person is considered an act of elder abuse...**”

Article 12 Universal Declaration Of Human Rights: Right To Privacy

Right to privacy. Article 12 of the Universal Declaration of Human Rights gives the right of privacy.

MY Note: I am protecting my privacy and that of many people helping me, as i do not want to put addresses, names, of helpers. This causes me distress, as I want to obey local laws. Right to the presumption of innocence. The right to the presumption of innocence (subsumed in the right to fair trial) is enshrined in Article 11 of the Universal Declaration of Human Rights.

UK: Strip-searching Is Humiliating...A Dreadful Invasion Of Privacy

“There is one particular aspect of entrenched prison routine that I consider wholly unacceptable for women...Strip-searching is humiliating, degrading and undignified for a woman and a dreadful invasion of privacy...A group of women in one prison, including some who suffered domestic abuse and some who had not, described strip-searching as making them feel embarrassed, invaded,

Perfect History of 10+ Canada Passports

Parents: Canada citizens Grandparents: UK and Canada citizens

Childhood:

Age 9: 10 Year Passport, My parents applied for my own passport

Age 18: 5 Year Passport

Applications through Montreal and Vancouver, Canada.

At least three more passports before living in Hong Kong and China, and some time spent living in England, where my ancestors originated from, as well as Scotland and Ireland.

Recent Canada Passports:

2003 – 2004 cusp of year, Guangzhou, due to crime

2008 – 2009 cusp of year, Hong Kong, 5 year. I ask to have my married name on my passport. I am told, not to bother. Cindy Chung refuses politely. Robbery attempt follows.

2009 Late in the year, Guangzhou, the Guangzhou Police are friendly. I go for tea with a police woman. We discussed how my in-laws fled Japanese Invasion for Hong Kong.

2011 2 passports, mid-summer, through Hong Kong, an interim passport for rush for travel to Summer School in China, a proper 5 year passport. I ask Cindy Chung again to have my married name put on my passport; I am in a rush, so take advice, not to bother for a while. She is helpful and friendly, but never wants me to have my married name done.

2016, January – February the troubles begin. I fight hard to have a 5 year passport, as they tell me because I want my married name on the passport, I can only have a 2 year passport. I foresee this will cause me trouble in the future, and it does.

Psychology Of White Collar Crime Echoes My Passport ID Loss!

Those who criticize countries such as China or Russia for not allowing unlimited freedom of speech are self-deceiving, as there is no perfect freedom of speech anywhere in this world and there never has been.

When I researched everything I could find about ID Theft on the Internet last year, I discovered an excellent and thorough website called Fraud Aid. An affluent businesswoman, in San Francisco, created this huge site, and now advises thousands of us, after being defrauded herself in white collar investment and securities scams.

Legal disclaimer: I am not saying that others are criminals. I am saying that the feelings induced, passivity, helplessness, and a frozen state, after long entanglements with government bureaucrats, may echo those of people who are deceived by con artists.

The bells that rang just would not stop, especially that the Plans have a Planned Ending, with a Beginning, Middle, and End, that you the naive and isolated individual walk into. We do not know often why these overly long tussles happen.

I have travelled all my life, and my Canadian family worked for the Canadian government, and even in the travel business: there is no way that I do not want my passport, or that I could have foreseen this disaster.

I quote from the article which is in italics:

Fraud Aid: "Gaining your confidence:

There are two basic elements required to create a scam: (1) That the deal be too good to pass up; and (2) that it involves a situation about which, in reality, the target has little or no knowledge even if he thinks he does. A con artist knows how to read you... he is not only talking to your conscious mind, he is speaking to your inner voices."

- The deal of Yes Passport can never be passed up
- Canada is a Perfect Country, everyone says so!
- I do not know their internal rules, they change them many times
- They do not need to be sensitive, terror having NO Passport keep me always in touch
- They learn more from our data, than we think, woman, Canadian, in Asia 25 years

Legal disclaimer: I use metaphor, I am not saying anyone is a criminal.

Fraud Aid: "Locating you, the victim:

Potential victims can be found in all sorts of places - country clubs, small airports where private planes are parked, cocktail parties, cruise ships, on the Internet, anywhere the con will find people who have extra money to spend"

- Canadian, one of the most desired citizenships in Chinese and other circles
- Most desirable ID for Hong Kong/Guangdong/Western Canada ID theft rings
- I live and travel the Hong Kong/Guangdong/Western Canada corridor since 2000
- I married a man who lives and travels Hong Kong/Guangdong/Vancouver
- He has dual citizenship, and many in-laws in Vancouver, same travel motions
- We have both been targets before (YES, I made police records)
- Alleged wrong doers also Hong Kong/Guangdong/Canada corridor

Legal disclaimer: I use metaphor, I am not saying anyone is a criminal.

"The next step is to be ...the only person on whom you can rely for ...your wishes, desires, and/or personal safety.

"The next step is to make himself or herself appear to be the only person on whom you can rely for the fulfillment of your wishes, desires, and/or personal safety. Keep in mind that in order for the scam to work, the scam artist will gain your complete and unquestioning trust, and they are very, very skillful at doing this."

- The ONLY person I can rely on? They did not have to work to gain my trust, they RULE my identity
- My personal safety? I am in incredible danger here

Legal disclaimer: I use metaphor, I am not saying anyone is a criminal.

"If the scam is long and involved, you will be instilled with a fear of contacting the authorities."

"If the scam is long and involved, you will be instilled with a fear of contacting the authorities. To accomplish this, the scam artist will use whatever fear is uppermost in your emotional

catalog. In your mind, you will feel that to take any action will either make you look foolish, and/or you will fear retribution from the con artist, and/or you will fear even the authorities themselves. If the scam has gone on long enough, you have been brainwashed, quite literally, into believing the scam artist more than the authorities and those close to you.”

- No one would remove SUKI YAN, as all of 2019 passed slowly, yet her manager seems to be CONNIE WONG, the manager of CINDY CHUNG perhaps, WONG is a common family name here which is also my own name, by marriage
- The court order ordered Canada Consul to deliver passport by January 28 2019
- I wrote dozens of letters, had a witness with me, pleaded OBEY the law, RESPECT the court, in writing; I kept records, all ignored.
- Every day of their slowness was a pain, a loss, a deprivation, but NO action by them
- I was manipulated into being the Blame The Victim transgressor, my body was to be forcibly held in the city until I ran out of all my savings denied all help, with refusal even to receive money sent by friends from abroad

Legal disclaimer: I use metaphor, I am not saying anyone is a criminal.

“The con artist moves into the position of supreme power.....”

*“Why don't more victims report fraud crimes? Because con artists are masters at instilling a sense of fear, shame, and guilt in their victims.
They are masters of domination and intimidation, artfully weaving them into their script. ..They don't merely seek out the greedy or the weak or the stupid....They seek out the needy.
Con artists will stalk anyone whose weaknesses or strengths can be used...You are moved from a position of control to one of no control over anything at all. ..The con artist moves into the position of supreme power.....”*

I have no control over anything. I cannot work, rent, receive money, take charges at law, travel, have medical follow up, they have instilled fear so great in me, I cannot breathe at times, and also manipulated me against other agencies: I am a Stateless Citizen, and told to report this problem to the Canada Consulate women, who made me a Stateless Citizen!

Legal disclaimer: I use metaphor, I am not saying anyone is a criminal.

“Forestalling action by the law:

“This is where terror tactics are used.

This is the step where the swindler will use every sort of threat imaginable to induce in you the deepest fears in order to prevent you from contacting the authorities for as long as possible, or maybe never.

The swindler will threaten you with anything ranging from total loss of all funds, to convincing you that you have involved yourself in some sort of questionable activity, to threatening you with maiming or death.

The swindler will use stall tactics by telling you that funds are tied up...The results are always the same - it gives the swindler time to wrap up his scam ... you will no longer be able to correspond with him, talk with him, or even locate him.”

Legal disclaimer: I use metaphor, I am not saying anyone is a criminal.

Immigration Centre Is Like A REAL Asian Jail:

I have had a history of over 100 entries and exits into Hong Kong, with NO trouble until CANADA created NO Passport No Visa. As I want my prior relationship with Hong Kong and China repaired, I do not criticize the Hong Kong Immigration department, as the ROOT is with CANADA. How this is like a Real Jail, but missing the preliminaries, such as a judge, jury, lawyers, prosecutors, right of appeal, etc:

Riot Police Officers: They are strongly trained, receiving anti-riot training, to desensitize them to violent or aggressive behaviour. They have to deal not only with female domestics, but to all types of people, including terrorists, murderers, or heroin traffickers.

History Of Being A Real Jail: It was once a Correctional Services Department but the Immigration Department took it over in 2009, and by habit, utilized the same managerial techniques.

Nude Body Searches:

I understand there may be drug users, and traffickers here, as the Bangkok - Hong Kong route is said to be a major drug route. This may be why these tough measures predominate.

I want to state that CHINA as a larger country does not allow these terrifying anal and vaginal body searches, nor does Pakistan. British and Americans may have taught these techniques.

Solitary confinement:

The Immigration Department states that detainees can file complaints if they have grievances, but when you apply for a complaint form from the officers, your name is written down. After that, you may offend someone, by complaining, and you can be put into solitary confinement.

Government Officials Do Visit:

The courtesies involved require that the people held there do not speak at all to these Hong Kong politicians, perhaps they concentrate on looking at the environment, food, hygiene, decoration. One woman interrupted a formal visit of these local dignitaries to ask why she was there, and received several weeks of solitary confinement. No talking.

Held For 2 Years or More With NO Trials: Arrests Bypassing Judicial System

I was given confidence not only by my full acquittal in court of Visa Overstay but by an earlier confidence from a barrister neighbour, "Both sides hate paying for the plane fare home." Yet two geographical areas, debating back and forth, could explain why inmates of the prison, or holding centre, linger for long periods of time. With blocked communications outwards, forbidden to speak to visiting politicians, detainees can be held for long periods. Two recent cases reveal one person held for two years, and another held for almost three years.

It is my own country CANADA that is pushing me towards this, hardly most Canadians, but a handful of workers at the CANADA CONSUL, who are setting me up for this. I hope I have written this article, clearly. I do not want to bore, or repeat.

Because of incredible irregularities in the handling of my passport, in an office that had three or four prior passports done, they have records of my life and my identity which will slowly be erased if I disappear into some holding centre in Asia.

Voices Of My Ancestors: On Fights And Fighting: My Maternal Grandfather

Both my grandfathers made it through four years of World War 1, with military backgrounds in both the British and Canadian armed services. My Scottish Canadian grandfather impressed me with his fortitude in surviving the famous Battle of Ypres, where mustard gas was used for the first time by the Germans.

He endured through three wars, though in the third, World War 2, he was asked to return as an expert in marksmanship to teach shooting to the younger men. Though he saw many of his own friends die on the battlefields of Europe, he was known for his gentleness, stability, and amiability. His early childhood saw some tragedy. His father died shortly after his birth in Edinburgh, leaving his widowed mother to raise four children and to manage their family store, a fishing and hunting supplies business.

Though I hate fighting, I think of my ancestors who are not only in my DNA, but spiritually, as I feel them around me, when my problems overwhelm me. I think of their wars.

If the battle seems almost hopeless, you cannot give up, you cannot weaken, you must use every bit of strength and intelligence you have, you must fight on.

ITEMS OF PROOF: Just A Few January - April Emails, 2019

I prepared a much longer and better Items Of Proof, Witnesses, etc. file, but of course, who do I take this to?

NO ONE in Hong Kong thinks that the Canada Consul should NOT be my Higher Authority. I thank so much all people who help me, but I do feel something needs amending in the legal system.

So I apologize, this is a Quick Read, to show how hard I fought. To Obey The Law.

I Implore CANADA To Obey Hong Kong Courts, Be Fast!

Did you get my previous email? I've sent a reply to the Quebec government requesting that they send your birth certificate and I have attached my phone bill, my parent's electric bill and a letter authorizing the release of your birth certificate. I'm waiting for their reply and have been busy the past two days with work. Please visit the Canadian Consulate and ask that they give the Quebec government permission to release your birth certificate. I'm hoping that they reply soon.

Subject: Fwd: Re: Letter to Canada Consulate

This is what I just sent them on Saturday. I hope to receive a reply from them sometime next week. I sent them my emailed phone bill last time, but they didn't accept it, so I'm sending them my formal one I get from my cell phone company. The proof of address of where I live in Vancouver I can send to them no problems at all, but they also have a requirement that you get written permission from the Canadian consulate in Hong Kong that I am authorized to receive your birth certificate. That's the last email response I sent to the government worker I talked to about your certificate which you can read at the bottom of this message. His name is Martin Olivier and you can see below his email address which is: Martin.Olivier@dec.gouv.qc.ca. If you want to talk to him about your birth certificate, you can email him directly. Tell him that you trust me and you officially authorized me to receive your birth certificate.

Joseph

My 2021 Note: There is a change in rules in Canada birth certificates, as we had one sent to this same house before, to Joseph. My Canadian husband writes, he needs a letter from Hong Kong: "written permission from the Canadian consulate in Hong Kong that I am authorized to receive your birth certificate"

Re. BIRTH CERTIFICATE, NEEDED FOR PASSPORT RENEWAL.

Dear Martin Olivier,

You are in touch with my husband ... Joseph Wong of Vancouver, British Columbia. He is a full Canadian citizen, as are his mother and father, and Wong. He has much ID and they own their home on Street as well, and want to help you. I trust him and we are in regular communication and always have been.

I am a full citizen by birth in Montreal and my father and mother were born in Toronto and Vancouver,..... .This is my phone in Hong Kong.....

I am sending you total information. In a second file.

The government of Hong Kong also needs this soon, as I was ill here and in the hospital, and they want to work with the Canada Consulate here.

Thank you for your help,

..... Eleanor Wong

The document should go by Rush Service to Joseph Wong.

Dear Connie Wong:

Due to the need to hurry to work with the HK Immigration Department, I am hoping the Canada Consulate will show mercy to me as well. I see this old passport should be used by Monday and Tuesday, February 12th, and the application BEGUN.

My husband Joseph Wong received slowness in obtaining the Quebec Birth certificate, for only one reason: living with his aged Chinese parents, using their home which is shared. He has every type of primary and secondary ID! So we continue the effort.....

Please see me soon, and I am mailing to you today as well. The HK Government knows how much I try, as I send theme records as well. Thank you for your help, and please think of the Chinese side as well, who have really been very patient and understanding.

Yours truly,

***** ELEANOR WONG.

ITEMS OF PROOF: Letter March 28, 2019, Ask Canada Consul For Help

March 28 2019

Dear Canada Consulate:

As you surely know, with no passport, and no visa, I am endangered in a foreign country. I therefore require help with:

1. Receiving money to the Consulate
2. Begin processing my Canada government ..., as the date expires on May ** 2019
3. Require you to waive the birth certificate requirement...

.... You may be very busy. I want it in WRITING what you will do to help me. And to have a helpful talk as soon as possible. I am contacting lawyers to delay this situation until I am given a regular 5 year passport, as anything else would be confirmation of further endangerment.

....Eleanor Wong.

ITEMS OF PROOF: Letter April 5 2019, Tell Hong Kong Immigration, No Help From Canada Consul: Excerpt

TO HONG KONG IMMIGRATION, WAN CHAI, RENEWAL OF VISA

... I have been trying to obtain my new Canadian passport for several months, and fear I will have to hire a lawyer. It is going so slowly. I am told conditions that are impossible to meet. For example, they asked me for a third piece of ID, when for 3 previous passports obtained there, I only needed two. They wanted a 3rd piece of ID in the married name Wong. I felt happy at first, since I had overstayed my visa due to illness, and had much more ID:

I told them I had now all of the following:

Married name Wong ID, hospital records...

Married name Wong ID, West Kowloon courtroom records, before magistrates...

Married name Wong ID, bail records, receipts for money

Married name Wong ID, your own Border Control records

They refused to accept any of these! Even a Hong Kong court not accepted.
..... I need legal advice....

ITEMS OF PROOF: Letter April 2019 To Higher Office Of Canada Consulate*, Re: I Will Be Stateless With No ID

Refusal To Give Me A Canadian Passport Renewal for 15 Months...

I have legal rights, as a citizen of Canada, and as a citizen of the world. I have tried for 15 months* to obtain my new Canadian passport, causing me visa overstay in Hong Kong. Even in 2016, problems were beginning with the request for a third piece of ID in my married name. (“Your marriage certificate cannot be taken as a proof of your married name.”) I am from a longtime Liberal Party family that funded tens of thousands of dollars to Prime Minister Lester Pearson and Prime Minister Pierre Trudeau. My father ran for the Liberal Party in the West Island area...

I appeal to you, before this enters into litigation, as I will appeal to the highest courts, both locally, and internationally, before I will lose my Canadian citizenship. You are rendering me stateless.

Therefore, I wish the Canadian Consul to help me quickly:

The Quarry Bay office has full details of how Canada refused to send me my birth certificate, and how 3 passports were already processed there successfully, prior to the reign of Prime Minister Justin Trudeau. They ask for HK ID, which is impossible since I entered on a Tourist Visa!

I need a date for the Hong Kong government, with no uncertainties.

Thank you for your help,

.... Eleanor Wong.

* My 2021 note: My last passport expired on February 12 2018. The Hong Kong Court Orders from December 2018 - January 2019 were made at the formal, legal request of the Hong Kong department of Immigration to supply the new passport by January 28 2019.

* My 2021 Note; I write to the Higher Office, Canada Consulate, Trade Office, and this will work very quickly, after I unwillingly threaten litigation. They send my letter to the Lower Office, Quarry Ba and SUKI YAN suddenly agrees to give me the passport. She waives the need since February 6 2018 to be a citizen of a foreign country! SEE meetings, with witness, APRIL and MAY.

**Yes, as I am unable to do banking here, receive money. I thank you for your offer of
financial aid to help in this matter.**

Due to the complexity, I think a 10 year passport is more expedient....

Read the 4 Meetings, Affidavits, Witnessed.

**I will never receive a passport throughout 2019, this is only a handful of perhaps
over 100 emails and letters, some registered, I wrote in the fight to get my Canada
Passport, note the change in agents, note the refusal to obey the Court Order,
note the lies told to the Immigration Dept. that a Rush Passport was ready,
October 2019 (Suki hoped I would be HELD there in the JAIL AREA?) and
understand why by January 2020, I believed I was in danger.**
